-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-12 are rejected under 35 U.S.C. 102(b) as being anticipated by Maass et al.- US 4553545.

As to claims 1-12, Maass-'545 (col. 8, lines 45-51; Figs. 13A-B, for example) discloses a biocompatible stent including coils 21 as vessel support elements, support rail element including elements 23a, 22a and 22b having curved end section 22a and 22b, elongated sections defined between a pair of two curved end sections substantially as recited in the claims.

Notice that the Fig. 13B only shows a portion of a stent having coils 21 shown in Fig. 13A.

### ***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 13 and 14 are rejected under 35 U.S.C. 103(a) as being unpatentable over Maass et al.- US 4,553,545 in view of Das- 5,554,181.

As to claims 13-14, Maass-'545 (col. 8, lines 45-51; Figs. 13A-B, for example) discloses substantially the claimed invention, except for an agent/coating of an agent for delivery to the body of a patient. However, Das- 5554181 (col. 8, lines 16-25) discloses a stent can be coated with a substance such as heparin, fibrin for delivery to a body for a treatment purpose. It would have been obvious to one of ordinary skill in the art to coat Maass-'181 stent as taught by Das- 5554181 for delivery an agent to a body for a treatment purpose.
